

Take a **Wildlife Discovery Tour**

The Wildlife Center's facility in Palm City is the venue for **Wildlife Discovery Tours**. A number of native wild animals are on display here, including Gracie the Bald Eagle and Otis the Barn Owl.

There are also turtles, alligators, and more! Our Interpretive Naturalists provide up-close views of these animals along with natural history and stories about them. **Wildlife Discovery Tours** are customized for your own group, making learning both relevant and fun. We provide a unique experience that is suitable for all ages and segments of the community — students and teachers, home schoolers, clubs and civic groups, Scouts, business and community leaders, families, seniors, and south Florida visitors.

Wildlife Discovery Tours are available by appointment, at your convenience, seven days a week. Each Tour lasts about 45 to 60 minutes. Cost is only fifty dollars for groups up to ten persons. Call to schedule a **Wildlife Discovery Tour** for your own group or family today! You are welcome to bring snacks and use the shaded picnic area near the Bald Eagle display.

Take a **Trail Hike**

The Wildlife Center contains nearly 300 acres of preserved wild land. **Trail Hikes** provide guided access to ecosystems including Pine Palmetto Scrub, Fresh Water Marsh, Upland Hardwoods, and Littoral Zone. Wild birds, insects, reptiles, and mammals may be encountered. Your Hike can be customized to a duration and effort level suitable for your group. You may schedule a **Trail Hike** as a supplement to your **Wildlife Discovery Tour**, or by itself.
